## Rardin "Directed Early Start On Construction" Of Four Glades Bridges

### Pipes Elected To WSWN Board

Dr. R. L. Pipes was elected last Sunday to the Board of Directors of Seminole Broadcasting Company, licensee of Station WSWN. Other members of the Board are Dr. R. G. Nelson, of Tampa, and Dr. S. C. Harward, of Brooksville, who are the two largest stockholders, and Mrs. Mary Foy, vice president of the company, a general manager of the station.

The Board, holding its regular semi-annual meeting here on Sunday, also discussed letters written to the Federal Communications Commission by Grady Norton, U. S. Weather Bureau in Miami, and by the Weather Bureau in Washington, stating that WSWN be permitted to remain on the air after normal sign-off hours during hurricane emergencies.

Certain civic organizations in Belle Glade, through the Lions Club, also have addressed letters to the FCC, which has warned WSWN that stationing the air after hours is a violation of Communications Code, unless all other communications have been disrupted.

In support of round-the-clock broadcasts, the letters to the FCC stress the importance of WSWN broadcasts over the Glades area to give a reasonable account of damages, and to prevent the spread of hysteria.

According to Mrs. Foy, the ruling has yet been given by the FCC.

### EPISCOPAL CHURCH DEDICATION SET FOR AUGUST 24

Final plans for Dedication Day, August 24, at St. Martin's Episcopal Church, Glades, were announced this week by John D. Clark, senior warden. At 9 a. m. the Rt. Rev. Henry I. Lottitt, D.D., bishop of the Diocese of South Florida, will celebrate the Holy Eucharist in St. Martin's. At 1 p. m. there will be a dinner honoring the church and the Confirmation candidates at the Clewiston Inn. At 2:30 p. m. the bishop will administer the Sacrament of Confirmation in the church. The dedication of the new vicarage will follow immediately. The general public is invited. Those wishing reservations for the dinner should notify Leslie A. Fitch, Clewiston.

### GIRL SCOUT TROOP MEETING TUESDAY

Troop No. 1 met at the Great Grandmother of Mrs. Lottitt, Tuesday, August 12, at 8 o'clock, according to Leader McCormack, who said she distributed approved Girl Scout greeting cards to the girls, who will put them on sale to the public.

Next regular meeting of the Troop will be today, August 15, at 3:30 p. m. at the Scout Hut. Leader McCormack requests that all past Scout and Brownie workers who have any materials such as handkerchiefs, or records, please contribute them to the Girl Scout Troop. A telephone call to her at 2830 will bring somebody to call for them.

## NEWS OF GLADES BOYS AND GIRLS IN THE SERVICE

Sgt. Thomas L. Kinney, who accompanied his wife and three-month-old daughter, arrived home Tuesday to spend a thirty-day leave with his family and friends. Sgt. Kinney has been in the service since he was 17, and upon the expiration of his leave will return to the Air Force and upon the building materials and hardware line; and the "Appliance" line, which is for the sale of appliances. W. W. Weeks, company official said.

Sgt. H. C. Kinney, Jr., who is making Military Service his career, has been visiting his family here. He is being transferred from Opa Locke back to Arcadia where he and his wife are now residing. His new home, three small dogs, and a cat.

## Valton Sheffield Transferred To Cross City, Fla.

This week Belle Glade said goodbye to Valton Sheffield, Sheriff, who transferred to Cross City, Fla. The two remaining policemen in this area are Joseph Paul Bertrand and Cpl. D. D. Dugan.

Sheffield, who served four years, one month, and seven days in the Glades, said that he is going to take up his duties as Sheriff in Cross City.

The two remaining policemen in this area are Joseph Paul Bertrand and Cpl. D. D. Dugan.

Well-liked here for his good-humored but firm way in which he handled the traffic laws, Sheffield said, he "really appreciated the cooperation" of the people in the Glades, and from law enforcement officers here.

Along with Sheffield has been six years in the Highway Patrol. He was born in Taylor County, Fla., and attended Taylor County High School. He served in the army from February 1942 to September 1945, with a field artillery group attached to the 1st and 33rd Infantry.

After the war, he was in the 2nd Armored Division. Taking part in the Normandy invasion, he fought through Belgium, Holland, and Germany, was awarded the Purple Heart.

## Noted Author-Lecturer To Address Lions

A 64-year-old man who "conquered himself and in conquering himself found a fortune in wisdom and money" will be guest speaker at the next Lions Club luncheon at the Bond on Wednesday, August 20.

Yash Young, lecturer, author, and lecturer, will tell Lions and their Rotarian guests how to "Be Kind to Yourself."

He is now being referred to as "The Kind to Yourself" man. He has been making the arrangements, Yash Young recently moved to West Palm Beach, Fla., where he is lecturing and broadcasting.

Yash Young is a native of the Glades, and he has lived in the Glades for 30 years ago, when full of sales for the Glades and his sales for June and July totaled \$7,250 he sold for \$840.71.

It happened in Texas in 1917, the decision to take his own life with a high jump from the hotel balcony. However, he had bought a bottle of whisky to give him courage for the deed.

He had plunged him into a stupor, from which he awoke with a headache, more depressed than ever.

It was then that he began to take stock of himself, and to ask whether his problems might not be self-created, rather than the result of a malignant fate.

From these beginnings at self-analysis, he reached the point at which he could say, "My happiness is not due to my property, but just the other way around."

He old self had died the moment he understood that all his necessary equipment for life and his enjoyment were created by himself, and not determined by external forces.

Since that time, Yash Young, a native of Utah, has written five books, and become widely known.

## SALE TO MAKE WAY FOR EXPANSION IN BUILDING

No more shack-knacks, no more appliances, lamps, stoves, washing machines, refrigerators, toasters, coffee makers, or other appliances will be sold at Glades Appliance store, which is being expanded to make way for expansion in building.

Previously a railroad man who had spent some time in California, Mr. Newman became an independent farmer owning a small piece of land north of Chosen.

Mr. Newman was also an excellent mechanic in wood and iron work, and during the war, spent some years in Miami, working as a carpenter.

He is survived by his former wife, Mrs. Nola Newman, a sister, Mrs. Fred, of Oakland, Calif., two sisters, Mrs. Margaret Hargreaves, Springfield, Ill., and Mrs. Elizabeth Hardy, California.

## City Fathers Deal With Divers Doins On Tuesday Night

### Group Insurance For City Employees—Millage

Because cigarette tax revenues this year amounted to \$5,000.11 more than last year, there is overabundance of funds in the City's fund for the necessary use of the state law, it was reported Tuesday night to the City Commission meeting by Frank Anderson, City Clerk.

Besides this report on the millage, two complaints against tax evaluations on property, and a bridge across the Hillsboro.

In fact, Mr. O'Connell stated that the witnesses interviewed the witnesses last Friday, any person charged with murder may be released on bond unless there is overwhelming evidence, deliberately put off.

Mr. O'Connell said that at the time, there did not seem sufficient evidence on which to charge a charge of premeditated murder, because neither he nor county officials were then aware of Pruitt's previous conviction for a similar offense.

Witnesses interviewed by Mr. O'Connell last week were Isaac J. Davis and Ben Flint, Negro police officers, Belle Glade, Thomas Whitehead, Belle Glade, and Ella Mae, Harvate, Deota Tate, Teresa, Charles Lee, and Frank O. Harris, Belle Glade, Negroes.

The case is now under further investigation, said Mr. O'Connell. "It is not my opinion that the case should be taken to the grand jury."

Both convicts were arrested on Monday, loaded 30 convicts onto the prison car, which they escaped about 4 p. m. Wednesday, according to a report relayed by the State Highway Patrol, Pahokee, which alerted police here to look out for a stolen car with the license plate 62-218, which the convict had stolen in Fort Myers to aid their getaway.

According to Officer Whitehurst, who was on patrol duty during the night, he first spotted the stolen car, a Blue Ford Sedan, about 2 a. m. Thursday. The car, with two men in it, was stopped at the traffic signal at the corner of Avenue E and South Main Street. Whitehurst followed the car onto the Palm Beach road, and radioed a message to Police Chief Goodlett and Officer Davis for assistance.

He then followed the blue sedan about three miles east of Belle Glade until the other police cars arrived. Whitehurst then passed the sedan car, and about one mile ahead of it, near Six-Mile Bridge, placed his own (Continued on Page Four)

## Preschool Conference Starts Today

Belle Glade teachers, together with other county teachers, are meeting today at Palm Beach High School to discuss plans for the coming school year, it was announced at this week's Frank O. Hobson, principal of the schools here.

Wetzel Watkins, Superintendent of Public Instruction, was scheduled to speak at 10 a. m. officially opening three weeks of conferences to be held at various county schools before school opens on September 8.

At 11 a. m. Mr. Hobson said, a principals' meeting was scheduled. Monday, all teachers will report to their respective schools. However, Mr. Hobson said, a meeting of the principals and teachers have signed up for a special workshop course in teaching and learning.

This course, which is sponsored by the University of Florida, will be given in West Palm Beach. Mr. Hobson said the preschool conference has been held at the county level for several years.

## Pruitt Released On \$2,000 Bond

### William Pruitt, 52-year-old man, arrested last week and charged with the murder of his wife, was released Wednesday on \$2,000 bond, set by Judge Richard P. Robbins.

According to State's Attorney Phil O'Connell, who interviewed the witnesses last Friday, any person charged with murder may be released on bond unless there is overwhelming evidence, deliberately put off.

Mr. O'Connell said that at the time, there did not seem sufficient evidence on which to charge a charge of premeditated murder, because neither he nor county officials were then aware of Pruitt's previous conviction for a similar offense.

Witnesses interviewed by Mr. O'Connell last week were Isaac J. Davis and Ben Flint, Negro police officers, Belle Glade, Thomas Whitehead, Belle Glade, and Ella Mae, Harvate, Deota Tate, Teresa, Charles Lee, and Frank O. Harris, Belle Glade, Negroes.

## Escaped Convicts Nabbed by Police Officers Here

According to Police Officer J. B. Whitehurst, blinker lights on the Six-Mile Bridge may have assisted in the capture of two escaped convicts here early Thursday morning. Whitehurst thinks the blinker lights on the bridge, plus the presence of three police cars, may have led the convicts to suppose themselves surrounded by "an army of police."

The two convicts, Harry Holland and Joseph Mulvey, who escaped Wednesday from Pine Island Prison Camp, Fort Myers, were arrested by Officer Whitehurst, assisted by Chief of Police Charles Goodlett and Officer Isaac Davis.

Both convicts were arrested on Monday, loaded 30 convicts onto the prison car, which they escaped about 4 p. m. ## South Bay Has More Aches Than A Rural Bobbysoxer In Town

### Tight Liquor Laws: No Bolls: Less Taxes, More Revenue Needed

After temporarily limelight concerning the elimination of bolls, preceded by tight liquor laws, comes a request to Chief of Police White to "bring in more fines," and a cut in the Chief's salary by the South Bay City Council.

The attempt to eliminate sin from the City, has brought woes and troubles to the community. Councilmen this week are elusive and noncommittal over the stiff salary cut that they have dished out for Chief of Police R. C. White, who at last Tuesday's session, the South Bay City Council had his salary whacked by \$525.00 a month.

According to Chief White, the cut came because he had refused to make South Bay into a speed zone, as demanded by the city boss.

The story broke to the Herald on Monday, loaded 30 convicts onto the prison car, which they escaped about 4 p. m. Wednesday, according to a report relayed by the State Highway Patrol, Pahokee, which alerted police here to look out for a stolen car with the license plate 62-218, which the convict had stolen in Fort Myers to aid their getaway.

BAPTIST PASTOR TO HOLD REVIVAL IN TOWN	(Contd.)
---	----------

Rev. James N. Purcell, Mrs. Purcell and the children left Sunday for Nashville, Tenn., on a two weeks' vacation. Rev. Purcell will conduct a two weeks' revival service at the Iva Chapel Baptist Church in Nashville during his absence.

Arthur King of Clewiston, brother of Mrs. Alice Lamouroux, will fill the pulpit during the absence of Rev. Purcell.

**BAPTIST INTERMEDIATES  
ENJOY PICNIC, SWIM**

The Intermediates of the Baptist Church enjoyed a beach party at Lake Worth Beach Monday evening, taking a picnic supper and a swim.

Those in the party were Mr.

Mrs. D. Shilver, Rev. and Mrs. James N. Purcell, Mrs. Jay Smith, Miss June Raylatte, Billie Charles, Ray and Jimmie Purcell, Bill Jackson, Glenn, Raymond and Josephine Martin, Lou Ann and Horace Austin, Carlin Micrell, Norma Jean Lovell, Billie Joe Rayley, Virginia Garner, Billie Jackson, Lucy Pearl Kelso, Donald Tanner, Donna Faye Walker, Joel and Mickey Parker.

Mrs. D. Shilver, Rev. and Mrs. James N. Purcell, Mrs. Jay Smith, Miss June Raylatte, Billie Charles, Ray and Jimmie Purcell, Bill Jackson, Glenn, Raymond and Josephine Martin, Lou Ann and Horace Austin, Carlin Micrell, Norma Jean Lovell, Billie Joe Rayley, Virginia Garner, Billie Jackson, Lucy Pearl Kelso, Donald Tanner, Donna Faye Walker, Joel and Mickey Parker.

Experiment Station at Gainesville and proved effective in keeping the bunnies from destroying vegetables and flowers.

In tests, lettuce patches sprayed or dusted with No-Nib® were free of damage from the bunnies. In fact, 80 to 100 percent of untreated plants were damaged.

According to F. V. Stevenson, associate plant pathologist at the local station here, No-Nib® has also been tried with successful results on other crops. No-Nib® is effective is the chemical that can be used in tests in which only a portion of a vine was covered, that portions of the vines were eaten by the bunnies munching away the rest of the plant. No-Nib® protects bean plants in their early stages, before more mature growth is reached.

**RUBBER HOSE—more than six car loads in Miami stock.** Last December, the City Council of Police was asked to grant a 10 percent increase to city employees (three of them: the City Clerk, the Chief of Police, and the City Attorney). Now, at its latest meeting, the Council has taken action not only the 10 percent increase previously granted, but an additional 25 as well. Chief White's salary is the only one that has been cut.

The City Council has reprimanded me for not going out hours of the day and with no assistance. I have certainly arrested traffic violators, and I will continue to do so, but I am not willing to make South Bay into a speed trap pure and simple, because I did not expect to be a speed trap.

Chief White's disclosure in this reporter, telephone calls were placed to South Bay Mayor M. J. Hardy, and Police Commissioner W. Gordon Bowen, two of the five members of the City Council. Other members are Melvin Herring, James Sumner, and H. B. Walker.

Mayor Hardy's telephone, there was no reply. For Police Commissioner Bowen, messages were left at two different numbers. He did not call back.

Finally reached on Tuesday and asked for comment on Chief White's statement, Mayor Hardy replied that he "had no comment" and would "stand on the minutes."

In South Bay City Hall, a hearing of the minutes showed them to be not highly informative of the discussion among the City Council and Chief White, although it was reported to be "amicable."

Regarding the salary cut, minutes of the meeting, said Mr. Bowen moved, Mr. Sum-

ner seconded, the motion to cut the salary of the Chief of Police to \$250 per month retroactive to August 1, 1952. Carried unanimously. Bowen then moved, Mr. Sumner seconded, the motion to cut the salary of the Chief of Police to \$250 per month retroactive to August 1, 1952. Carried unanimously.

On being queried about the discussion, City Clerk Mrs. Mabel Bowen said that under the circumstances, she preferred to leave public statements to the city officials.

Located in a Texaco Station on Road 27, Police Commissioner Bowen was loath to talk. "I'd like to leave any statement to Mrs. Barstow," he said. On being informed that Mrs. Barstow felt she could not properly make a statement, Mr. Bowen consented reluctantly to consult the Mayor and "decide what to say."

Mr. White gave the story all wrong," he said. However, he was slow to divulge any "corrected" version. He finally said that as Police Commissioner, he had not had "one ounce of cooperation" from Mr. White since the day he was named chief of an elected office.

"This town is growing," said Bowen. "It needs more revenue. Mr. White just isn't bringing in enough revenue."

When it was pointed out that Mr. White's supposed period of better cooperation (during his service as an appointed revenue collector for the year were about \$2,000 lower than the present 10-month period), Mr. Bowen maintained that he himself had brought in a "good part" of the nearly \$5,000 in fines and forfeits. An additional part had come through the substitute office on duty the first two weeks of July, when White was taking his vacation, Bowen said.

Wednesday morning the following statement was presented to the Herald on behalf of the City Commissioner and Mayor Hardy:

In answer to the charges as related by the Belle Glade Herald reporter to have been made by Mr. C. White, Chief of Police of South Bay, about recent actions of the City Council, we would like to say:

1. That the City Council did lower the salary of the Chief of Police from \$300.50 to \$250.00 because they thought it excessive for the services performed in our City. Part of the consideration for this action by the City Council was that, after investigation, they found the salary as now established to be in line with that paid by other cities of our size for this position.

2. In regard to Mr. White's reported statement that he has been instructed by the City Council to make a speed trap out of our City, we would like to say it is false and untrue. Neither I nor any member of the City Council to my knowledge, has ever instructed Mr. White to create a "SPEED TRAP" out of our City for the purpose of taking revenue from the tourists. Mr. White has been told that there is a serious traffic hazard in South Bay due to dangerously excessive speed by motor traffic on the main highway through our City. Mr. White has been requested and instructed to arrest all speeders in the City driving in excess of 50 miles per hour and to give five minutes to those driving between 25 miles per hour and 50 miles per hour. Many of our children must cross these highways on their way to school. If steps are not taken to protect them a serious accident is almost inevitable.

M. J. HARDY, Mayor, Figures, Fines, Forfeits, Chief of Police White, report that since October 1 last year.

August 12, 1952.

Regarding the salary cut, minutes of the meeting, said Mr. Bowen moved, Mr. Sum-

ner seconded, the motion to cut the salary of the Chief of Police to \$250 per month retroactive to August 1, 1952. Carried unanimously.

On being queried about the discussion, City Clerk Mrs. Mabel Bowen said that under the circumstances, she preferred to leave public statements to the city officials.

Located in a Texaco Station on Road 27, Police Commissioner Bowen was loath to talk. "I'd like to leave any statement to Mrs. Barstow," he said. On being informed that Mrs. Barstow felt she could not properly make a statement, Mr. Bowen consented reluctantly to consult the Mayor and "decide what to say."

Mr. White gave the story all wrong," he said. However, he was slow to divulge any "corrected" version. He finally said that as Police Commissioner, he had not had "one ounce of cooperation" from Mr. White since the day he was named chief of an elected office.

"This town is growing," said Bowen. "It needs more revenue. Mr. White just isn't bringing in enough revenue."

When it was pointed out that Mr. White's supposed period of better cooperation (during his service as an appointed revenue collector for the year were about \$2,000 lower than the present 10-month period), Mr. Bowen maintained that he himself had brought in a "good part" of the nearly \$5,000 in fines and forfeits. An additional part had come through the substitute office on duty the first two weeks of July, when White was taking his vacation, Bowen said.

Wednesday morning the following statement was presented to the Herald on behalf of the City Commissioner and Mayor Hardy:

In answer to the charges as related by the Belle Glade Herald reporter to have been made by Mr. C. White, Chief of Police of South Bay, about recent actions of the City Council, we would like to say:

1. That the City Council did lower the salary of the Chief of Police from \$300.50 to \$250.00 because they thought it excessive for the services performed in our City. Part of the consideration for this action by the City Council was that, after investigation, they found the salary as now established to be in line with that paid by other cities of our size for this position.

2. In regard to Mr. White's reported statement that he has been instructed by the City Council to make a speed trap out of our City, we would like to say it is false and untrue. Neither I nor any member of the City Council to my knowledge, has ever instructed Mr. White to create a "SPEED TRAP" out of our City for the purpose of taking revenue from the tourists. Mr. White has been told that there is a serious traffic hazard in South Bay due to dangerously excessive speed by motor traffic on the main highway through our City. Mr. White has been requested and instructed to arrest all speeders in the City driving in excess of 50 miles per hour and to give five minutes to those driving between 25 miles per hour and 50 miles per hour. Many of our children must cross these highways on their way to school. If steps are not taken to protect them a serious accident is almost inevitable.

M. J. HARDY, Mayor, Figures, Fines, Forfeits, Chief of Police White, report that since October 1 last year.

August 12, 1952.

28 arrests have been made by three officers other than the Chief of Police, including three by Commissioner Bowen, 20 by substitute officer Charles Woodlett, and five by Officer Ben. Fines and forfeits from these 28 arrests total \$1465.

In the same period, Chief White has made 222 arrests and forfeits brought in \$4,684 fines and forfeits. He says that of the 222 cases, 15 were dismissed or worked out fines totalling \$480.

Chief White's predecessor, Chief of Police C. T. Payne, who served seven years from 1942 to 1949, including the heavy war years, brought in a total of \$42,000 in fines and forfeits. The last year of his appointment, fines and forfeits amounted to \$4,890.

**CITY FATHERS**  
(Continued from Page 1)

The city would hand over to Mr. Friedman in exchange, a deed to Mr. Friedman's home.

Mrs. McDonald, park supervisor, spoke to the Commission on the desirability of the exchange, and a committee composed of Mayor Cline and Commissioner Cline will meet with Mr. Friedman next week to discuss the matter.

When Reuben Portier, previously granted a post office in the matter of the Mount Carmel Seventh Day Adventist Church, failed to appear at Tuesday's meeting, nor did any representative appear on behalf of the church.

Carlton said a general utility company should be required to repair the city equipment in good repair.

in response to a petition from the city employees, a letter of recommendation from the Civil Service Commission, and an endorsement by Belle Glade Memorial Hospital, the Commission unanimously adopted Blue Shield and Blue Cross group insurance and group surgical coverage for 48 city employees. Cost to the city for one year of this coverage will be \$1,499.

Cash payroll employees after six months of service and all Civil Service employees at the time of confirmation of appointment are eligible for this protection, which is effective September 1. Employees' dependents may be covered by payroll deductions from the employees' salaries.

Other Commission actions were:

On recommendation of N. B. Willis, City Inspector, voted to order Doris Saunders to appear before the Commission at its next meeting to show cause why the building at 401-409 SW 11th Street should not be demolished. The building, used as a cook shack, is flimsy and unsafe. Willis said, and in any case it is being torn down will probably be completely demolished within the next two weeks.

When Reuben Portier, previously granted a post office in the matter of the Mount Carmel Seventh Day Adventist Church, failed to appear at Tuesday's meeting, nor did any representative appear on behalf of the church.

Carlton said a general utility company should be required to repair the city equipment in good repair.

the cigarette tax revenue exceeds the previous year's revenue, the operating ad valorem tax millage to be levied in the current year must be reduced below the ad valorem tax millage in the preceding year. The reduction must be by the ratio which 50 percent of the increased cigarette tax revenue bears to the ad valorem tax revenue provided the ad valorem tax millage is not reduced to less than 70 percent of the 1948 operating ad valorem tax millage. Fascinating?

The increase in cigarette tax revenue this year is \$5,509.11. Fifty percent of this amount is \$2,754.56.

Ad valorem tax revenue for the year ending June 30, 1952 was \$78,435.85, based on a levy of 12 mills.

The ratio of 50 percent of the increase in cigarette tax revenue to the ad valorem tax revenue is 3.51 percent.

The ad valorem tax levy for 1951 was 12 mills. The reduction required by law is arrived at by multiplying 12 mills by 3.51 percent, which gives a 42 reduction, and a result of 11.58 mills. Frank Anderson, who figured all this out in the first place, was a round figure of 11.50 mills, and has written a letter to the proper authorities asking them to fix it like that.

The City Commission agreed that Mr. Anderson should certainly send the letter, in Construction Co. Phone 2571, Belle Glade. 8-15-1

## Too Late To Classify

By Russell Kay

While we hear a lot now about industry being taxed out of existence, now we learn to our amazement that taxes can work both ways and in one instance at least, an industry is being taxed into business.

Following the repeal of prohibition the bootleg industry practically went out of existence, at prices that made illegal distilling unprofitable and not worth the risk.

In less than 18 years since the repeal of prohibition taxes on distilled liquors have gone up from \$1.10 per gallon to \$10.50 per gallon—an increase of 854 percent. And this is only one of the 23 separate taxes laid on this industry.

As a result, bootlegging is flourishing again, and second-

ing to Earl Leonard, Southeastern Representative of Licensed Beverage Industries, Inc., a national public relations organization for the alcoholic beverage industry, almost as many stills were seized by law enforcement officers last year as were seized in any year during the heyday of prohibition.

Leonard said that the illegal stills seized last year—20,311 of them—had a capacity of 715,000 gallons a day which is more than the capacity of all legal distilleries in the country combined; a great deal more than the government has a daily capacity of only 400,000 gallons.

Today the government is taking in less tax revenue from liquor than it did before the present high tax was imposed, although liquor consumption appears to be on the increase.

The figures quoted by Leonard apply to only the known

stills that have been put out of operation. No one knows how many remain undiscovered and we can only guess as to the amount of illegal liquor they produce each year.

With the increase in the manufacture of illegal liquor, we are receiving more and more reports of the distribution of poisonous concoctions that resulted in many deaths and many cases of blindness. Such cases were reported in both Georgia and Florida within recent months, and while the public has been warned by both the legitimate beverage industry and the government to be on guard against poisoned liquors, bootleggers in some areas are willing to gamble with lives of their customers as they flood the market with white mule.

While those who favor prohibition may joyfully applaud every law increase imposed on the legitimate distilling industry by the nation and the state, the fact is that such increases are not only costing the government loss in revenue but are giving more and more encouragement to illegal operators and hastening the repeal of the laws that were so prevalent during the prohibition period.

There is a saturation point beyond which taxes cannot profitably be imposed and we have reached this in not only the beverage industry but in many other industries. Excessive taxation reduces rather than increases revenue and is a real stimulant to the bootlegger and racketeer.

Those able to afford good liquor are not penalized for they will continue to have their bootleg stock, but the man of low income, finding his price out of the legitimate market, turns to the bootlegger, risking blindness or death in his effort to keep up with the country club set.

Congress and state legislatures cannot continue to impose more and more taxes and expect such action to solve our economic problems. It is time they began to give serious consideration to reducing the cost of government, eliminating waste and cutting the excessive national and state payrolls. This can be done without seriously affecting the necessary or needed services.

What is happening in the licensed beverage industry as a result of the national tax and tax, spend and spend, elect and elect policy might well be needed by legislators for it indicates what happens when the saturation point is reached.

## THIS WEEK'S

(Continued from Page One)

Fish, turkeys and such dairy products as cheese and nonfat dry milk are also plentiful although milk itself is in short supply in several states and may go up in price as a result. . . . Southeastern states will share almost a third of the \$64 million allocation of the USDA for the school lunch program which reimburses schools in part for their local food purchases for youngsters. The school lunch fund apportionments in the southeast are: Alabama, \$2,525,000; Florida, \$1,211,000; Georgia, \$2,348,000; Kentucky, \$2,119,000; Mississippi, \$2,227,000; North Carolina, \$2,295,000; South Carolina, \$1,871,000 and Tennessee, \$2,167,000.

**EDUCATION**—The Federal Security Agency says there will be an increase of 40 percent in the nation's school population by 1960 with the southeast contributing more than any other region—due to the high birth rate and because of the impact of economic opportunity. The Atomic Energy Commission's Savannah River Project is cited as just one example. In order to meet the educational needs in this area, the FSA is providing \$7,100,000 for the construction of additional facilities for 12,120 additional school children who, but for the project, would not be there.

**CONTROLS**—The Wage Stabilization Board has announced exceptions to the general exemption from controls extended to small business firms (with eight or fewer employees) with new building and construction, trucking, tool, die and pattern-making, automotive "repairing," logging, sawmills and planing mills; new plants where it is planned to employ more than eight workers in the future; enterprises where one or more workers are under an industry or area master contract, and certain businesses which derive more than 25 percent of their income from dividends or rent.

The Office of Price Stabilization has granted tax-exempt fees to processors and distributors upward adjustments in ceiling prices to put them in line with important as livestock feed on a more equitable competitive basis with other feeds. . . . The Office of Salary Stabilization has opened a regional office in Atlanta to serve the southeast with Elliott R. Jackson of Sturgis, Mississippi, in charge.

**SHE HOLDS TWO TITLES, SEEKS A THIRD.** On the basis of her beauty and her homemaking ability, Mrs. John W. Leonard, (nee Donna Lee Bowman), formerly of West Palm Beach and this city, has been chosen Mrs. New Orleans and Mrs. Louisiana. A stepdaughter of Jay Sample, and formerly a student here, she is married to the son of Dr. John I. Leonard, president of Palm Beach Junior College. Her husband, a U. S. Coast Guardsman, is now on duty at New Orleans. Mrs. Leonard's measurements are near perfect, a 34-inch bust; 24 inches; hips, 37 inches; and weight, 120 pounds. Mrs. Leonard will compete Mrs. Louisiana in the Mrs. America contest at Asbury Park, New Jersey, September 7.

## STORAGE FACILITY LOANS AVAILABLE THROUGH PMA

Good news to farmers who need loans to build storage facilities is that the loan program of the Production and Marketing Administration has been extended indefinitely. The extension was effective June 30 this year, and involves some changes in the regulations, mainly in the basis of calculating the loan.

Formerly, loans up to 85 percent of the cost of a proposed storage facility were available; the percentage has now been reduced to 80. . . . In length of time allowed for repayment, which has been reduced from five years to four and in the due date of the first installment.

In an interview this week, J. W. Strickland, County Administrator, Office of the Production and Marketing Administration, disclosed that farmers in Palm Beach County were first in Florida to take advantage of federal loans to get storage facilities, and that so far, Palm Beach County has received more loans under the PMA program than any other county in the state.

One of the responsibilities of the Production and Marketing Administration (a branch of the U. S. Department of Agriculture) is to give assistance to farmers who carry out certain agricultural conservation practices. Integral conservation practices, important in the PMA administrative setup is the County Committee, composed of members selected from among farmers who participate in the conservation program. But agriculture conservation is only one of the PMA programs.

The loan program which is administered by PMA under the general supervision of the president of the Federal Reserve Bank, provides loans amounting to 80 percent of the cost of a proposed storage facility, or to 45 cents a bushel of rated storage capacity. These loans may be secured by "eligible" borrowers wishing to store certain specified commodities in "eligible" structures.

What do these definitions amount to? First, eligible structures are defined as "movable type, which meet the requirements for eligible storage under the CCC price support loan programs. . . . provided such facilities are to be used for the storage of corn, grain sorghums, soybeans, rice, pasture seeds and hayseeds produced by an applicant owned by the eligible borrower."

Movable type storage facilities are generally of the Quonset or laminated wood type. Now what is an eligible borrower? It's a person who as tenant or landlord, or land-owner operator, produces, or stores, or has the accepted commodities (rice, corn, etc.), or a cash rental landlord on whom any one or more of the commodities are produced, or "any two or more of such persons who join together in purchasing and erecting or constructing a facility. . . . provided the facilities are to be used by themselves. The regulations say that "the term 'person' means . . . an individual, partnership, corporation, or other legal entity."

One thing that this means is that an outside corporation cannot come in and buy land solely for putting up a storage facility and expect to get a PMA loan

loan, and with coverage for hazards existent in this area.

At the time the loan application is made, the applicant must pay a service charge of one-quarter of a cent per bushel of the rated storage capacity; but in no case will the charge be less than \$2.50.

Disbursement of the loans will be made by the PMA office, Box 70, West Palm Beach.

Farmers who are interested in loans for building storage facilities should get in touch with Mr. Strickland, who visits Belle Glade usually twice a week, making his headquarters in the Sanders Building.

State Executive Officer of PMA is R. S. Dennis, with offices at Gainesville.

## MINK IN FLORIDA

Although mink are trapped in the wilds of Florida every year by professional fur trappers, scientific mink breeding is new to the state. Mr. J. H. Maus has been experimenting for the past year on the shores of Lake Weir in southern Marion County with a mink ranch.

This experiment is proving successful. His first pelts were judged by an authority on mink fur in New York to be of equal quality to those produced in any other section of the world. Mr. Maus is now ready to begin producing mink breeding stock and pelts.

Mink ranching is not new to the United States and Canada, but few people are familiar with the characteristics of the mink. Mink are divided into two main groups. The Ranch Mink, the standard dark fur and the Mutations among which are found the Silverblue and the Pastel.

Perfect control over each mink at all times during the breeding season has resulted in establishing genetic backgrounds and in-breeding is prevented. Mink breed in May and whelp in May. The gestation period varies from 42 to 60 days, but the average is 46 days. Most kits are born between the 25th of April and the 10th of May. Their eyes begin to open in 28 days. The kits are only one-half inch in length at birth, are between 4 and 5 kits per litter. The kits must be left alone during their first weeks because an excited mother mink will set her litter. When left

alone they are excellent mother

and raised off the ground, fed a proper ration, they stay remarkably healthy. Mink are fed once a day, before sundown. About 100 pounds of food equals one peck. Their diet is about 80 percent meat products supplemented by brewers yeast, bone meal, toluene, etc.

Fifty male pelts or 70 female pelts, plus about \$600.00 worth of labor, are required to produce one full length mink coat.

Mr. Maus and his attractive wife are proving once again, kept in clean quarters, kept on verminosity of Florida industry.

## BUICK'S POWER STEERING? It's the big NEWS of the year

THERE is a host of things that endear a ROADMASTER to anyone who loves to drive.

There's the might of its Fireball 8 Engine—most powerful ever put in a Buick.

There's the thrift of its Airpower carburetor—a four-barrel automatic that literally brings increased power right out of thin air.

There's its hushed and luxurious silence—its poised and level ride that cost a million dollars to develop—and the infinite smoothness of its Dynaflow Drive.

But the thing that has brought the most cheers for this big and obedient beauty is Buick's version of Power Steering.\*

Gone is the tug of turning, parking, maneuvering in small space.

Power Steering takes over the effort of turning the front wheels—makes it a one-hand operation.

Do you have to learn to drive all over again if you have this new Buick feature?

You definitely do not. On the open road, you have that same sure sense of command that you've always had. Coming out of a curve, you can loosen your grip, and the front wheels right themselves just as they do on every Buick.

But you'll notice this: When you suddenly hit loose dirt or sand—or a stretch of rough road—Power Steering smoothly goes into action—helps take up the jerk—makes control of the wheel easier and driving safer.

Wouldn't you like to try out this newest wonder —on a ROADMASTER or a SUPER? You say the word, and we'll do the rest.

Equipment, accessories, trim and models are subject to change without notice. \*Optional at extra cost on Roadmaster and Super only.

Mr. and Mrs. Terry L. Drig-  
gers and daughter Ann have re-  
turned from a three weeks' visit  
among his relatives at Dothan,  
Ala., and an outing at BlueGator Fish Camp at Wehitch-  
la. On Sunday, August 3, a  
family reunion of the Driggers  
family was featured by a fish  
fry and a picnic. Twenty-  
two members of the family were  
in the party.SOUTH BAY COUNCIL  
ADOPTS PERMANENT  
REGISTRATION SYSTEMAt their regular session Tues-  
day evening the South Bay City  
Council passed an ordinance  
setting up a permanent registra-  
tion system similar to that now  
operating in Palm Beach County  
and elsewhere in the state.The next regular municipal  
election to choose three council-  
men will be held on October 7.  
Citizens desiring to vote in the  
election are required to re-regis-  
ter according to this ordi-  
nance in order to be eligible  
to vote.Registration books are now  
open at the City Hall and will  
remain open for registration of  
local electors until ten days  
prior to the coming election.In addition to this action, the  
Council also adopted an ordi-  
nance setting the occupational  
License for retail bottled gas  
by passage only, at \$15.00 per  
year; and all others, including  
selling and servicing equipment,  
at \$25.00 per year. All profes-  
sional licenses expire on  
September 30, and licenses for the  
coming year are due on October  
1.Bids for the annual audit of  
the city and city waterworks  
books will be accepted up to  
September 16. Those wishing to  
file a bid may do so at the City  
Hall at any time up to that date.The budget for the ensuing  
year is now being compiled, and  
will be adopted at the next regu-  
lar session on August 19.The annual sale of real estate  
property for delinquent taxes  
has been set for Sept. 2 at 12  
o'clock noon at the City Hall.The City Council will sit as a  
Board of Equalization Tuesday,  
August 19 at 8 o'clock in the  
evening to hear complaints or  
grievances of property owners  
on valuations set on their prop-  
erty. The tax roll for 1952 is  
now available to citizens who  
desire to inspect it. They may  
do so at any time during office  
hours at the City Hall.PALM LAKE GROUP  
TO MEET AUG. 8The Palm Lake Association  
Training Union group will hold  
a meeting at the South Bay Bat-  
tist Church on Monday, August  
18, at 8 o'clock in the evening.  
All members of the Palm  
Lake Association are urged to  
attend. Bob Johnson of West  
Palm Beach First Baptist  
Church, Training Union Direc-  
tor of the Palm Lake Associa-  
tion, will preside over the ses-  
sion.Sales of liquefied petroleum  
gas in Florida amounted to ap-  
proximately 561,000 gallons during 1950, the  
latest year for which figures are

RITES FOR ALEX ROBER  
HELD IN BARTOWMr. and Mrs. H. B. Walker,  
Mrs. Edna Walker and Earl  
Walker attended the funeral of  
their nephew, Alex Rober, Jr.,  
at the Main Street Baptist  
Church in Bartow Thursday.Alex Rober, husband of Mrs.  
Ruhk Walker, was ac-  
cidentally electrocuted while  
working on a transformer on  
the main street of Bartow on  
August 4. He leaves his wife,  
a four-month-old son, Danielle,  
his parents, and several brothers  
and sisters. He was 21 years  
of age and an experienced line-  
man.The Ropers visited South Bay  
recently on a tour of South Flor-  
ida. Mrs. Roper is well known  
here, as she was a frequent  
visitor among relatives here be-  
fore her marriage. She is the  
daughter of Mr. and Mrs. Robert  
Walker of Bartow.It cost Dan McCarthy and his  
supporters \$251,960 to win the  
Governor's race. Bralley Od-  
ham, who lost by a small mar-  
gin, spent \$141,275.SOUTH BAY SANITATION  
SURVEYED BY EXPERTSA complete sanitary survey  
of the City of South Bay was  
undertaken and completed re-  
cently by Palm Beach County  
Sanitarians Joseph C. Alvarez  
and Clyde A. Brown. Accord-  
ing to the bulletin Health News,  
this survey was conducted at  
the request of the city official.  
The County Health Department  
is now in the process of com-  
piling the results.

## ROOTING CUTTINGS

By Mrs. Luther Jones  
My cutting box, boxes or tubs, are under my orange and lemon trees in the backyard. From time to time, I stick cuttings in the mixture of sand and muck, and forget them. Of course, they get watered (when it does not rain) and given liquid fertilizer from time to time.

In the hot, moist air of summertime here, cuttings of crepe myrtle, ixora, hibiscus, pentas, cup-of-gold vine, crotons, datura, and all the philodendrons root easily. By October, they are all ready for transplanting into pots or cans. I wait to transplant the shrubs into the ground until early spring, letting them perfect a good root system in the pots or cans.

The cuttings are placed in the tubs or boxes in rows. I water them sparingly, and if heavy rains fall it is desirable to cover with glass, or something to keep the rains from over-soaking them.

Hibiscus cuttings may be placed at any time of the year. Chrysanthemums should be planted in late spring in order that they may be ready to set out in the yard in August for winter bloom. After day lilies have bloomed, one or two new shoots are often sent out from the stems. These may be cut off and placed in the cutting box, leaving an inch of stem to sustain them until they have their own roots. These are all ready for transplanting in the spring.

I am now growing cuttings and seedlings for the plant sale early in October. These will be priced very moderately in order that more and more people will become flower-lovers and growers, thus making our town more beautiful.

## ZIEMAN SISTERS TOP WINNERS AT TALENT SHOW

A decisive first place victory was awarded the Zieman sisters, Peggy and Teresa, at the Hugo Theatre, Thursday night, July 31st, for their clever presentation of two songs.

According to Malcolm Millar, thunderous applause proclaimed them tops on a last moving bill of Pabokee and Belle Glade talent.

It could have been a tie between Sandra Gove and Rita Blunk. Both acts were cleverly presented, and both acts deserved a second prize.

Sandra offered "The Dove" in a lovely Spanish and was handsomely acclaimed by a near capacity audience. Her second number, "Take Your Finger Out of Your Mouth," brought a young lad up from the audience.

His antics and the clever way Sandra presented the number brought healthy laughs from the crowd.

Rita Blunk and Steve presented two Hillbilly numbers. Both numbers brought rousing rounds of applause.

Three guest stars from Pabokee were presented as a show opener. Chris Jones, on the harmonica; Bobby Schroeder, with a hot more whole and expert number; and Valerie Geiger, song stylist.

**Pic Tours of Europe**

GREECE IS AN ENCHANTING AND COLORFUL JACQUARD LAND. IN MANY PARTS OF THE COUNTRY TRADITIONAL COSTUMES ARE STILL WORN; ANOTHER FASCINATING CUSTOM: ANCESTRAL PRACTICES ARE PRACTICED EVERYWHERE AND THE THERMOPOLY PIPE STILL SOUNDS AMONG THE TIMELESS MOUNTAINS.

AMERICANS ALWAYS HAVE A WONDERFUL TIME IN EUROPE. BECAUSE THEIR MONEY GOES SO FAR THERE, LIVING IS COMFORTABLE, AND THE EUROPEANS ARE FRIENDLY AND HELPFUL TO VISITORS.

**BELGIUM** MANY VISITORS TRAVEL TO BELGIUM TO SEE THE FAMOUS MONUMENT COMMEMORATING THE BATTLE OF THE SLUGS IN 1914-15. MADE IN THE FORM OF A 5-POINTED AMERICAN STAR, THE MONUMENT HAS 40 COLUMNS REPRESENTING THE 40 STATES.

## SIMPLER RECORD-KEEPING FOR FARM WORK KIDS

Amendment of the Fair Labor Standards Act's record-keeping regulations as they apply to children employed on farms has been announced by the U. S. Department of Labor.

Issued by Michael J. Galvin as Acting Secretary of Labor, the amended regulations become effective August 11. Under them the farmer will be required to record three items for children under 18 years of age

who work on his farm on days when school is in session. They are: (1) the child's name; (2) his date of birth; and (3) the address of his permanent home, and where he lives while working if not at his permanent home. These items need be entered only once for each child hired by the farmer.

Galvin's action was taken under the Act's provisions which prohibit the employment of children under 16 in agriculture during school hours for the school district where the child

lives while so employed. The Act as now written does not prohibit the employment of children outside school hours and does not apply to the farmer's own children who work on their parent's farm.

Galvin's action simplifies the present requirements applying to farmers. Complete text of the amendments was published in the Federal Register July 12. Copies may be obtained from the U. S. Labor Department's Wage and Hour and Public Contracts Divisions. In Florida, offices of the Division are located at 1023 Liberty Street, Jacksonville, and 702 Commonwealth Building, Miami.

## VFW HEARS REPORT ON FUTURE FARMERS PROJECT

A loan of \$75 by the Veterans of Foreign Wars Post 1181 helped six Future Farmer boys in the cattle fattening project in the school year 1951-52, it was reported on Tuesday night by E. C. Mapp, commander of the Post. Speaking to the veterans' meeting at the VFW Home on Palm Beach Road, Commander Mapp said that the VFW loan had been combined with other loans to assist the FFA boys in purchasing eight calves, which they had fattened and sold.

After repaying their loans, the boys reaped a neat profit to help them with school expenses and with making a star in life. Commander Mapp said. He received the report of the boys' activities from Mr. J. R. Davidson, the agriculture teacher at Belle Glade High School, who supervised the boys in the project, and estimated that the portion of profit which the VFW loan had helped the boys to pile up was \$115.15.

## BENNY FRUIT FIRST IN TALENT SHOW

Benny Pruitt, 15-year-old piano player, was a sensation at Malcolm Millar's Talent Show, Thursday, August 7th, and a near capacity audience awarded him a storm of applause, making him unanimous first place winner.

Benny Pruitt is destined for a high place in the music world, if he continues with the ambition and enthusiasm he now possesses. His "Improvisation" displayed the talents of an advanced student in music and met with instant approval from the audience. For his second number he offered "Under the Double Eagle," and could easily have taken a third encore.

Neal Livingston gave a reading on the order of Phil Harris. We couldn't catch the words, but Neal kept losing his points and that must have caught the audience, and Neal caught second place on the bill.

Sarah Williams gave two expertly rendered numbers on the harmonica. Sarah is very talented on this instrument and was more than deserving of the fine hands her two numbers drew.

Bessie Martin went through a routine of cart wheels, back bends, splits and roll overs which received the applause her playing drew.

Ann Rita Burns, tiny guest star from Pabokee, was sweet and girlish, and delivered two numbers. Her "Loveliest Night in the Year" was her best piece and won a fine hand from the crowd.

Ada Lou Tillman, with charming personality and a fine voice, gave two numbers in fine style. Her "Blue Moon" was best suited to her voice and style of singing and she came away with a solid round of applause. Ada was also a guest from Pabokee.

Mr. Millar held back the second sensational act of the evening until all of the local talent had been presented, he then introduced Eugene Caruthers, guest star from Pabokee, who gave one of the greatest impressions of Johnny Ray, "Sob singer par excellence," that has ever been seen in this area.

Gene grimaced, writhed, sobbed, blubbered, tore off his tie and clawed at his coat through "Cry" and finished on the floor exhausted, revived only by the ear splitting round of applause that came from the audience.

His second number "The Little White Cloud that Cried," seemed to go over even greater than his opener and he left the stage with a roar of appreciation.

Two more weeks remain for the elimination contests and Mr. Millar urged anyone wishing to enter to do so now.

Peter Schaaf, public relations director of Silver Springs, has been elected to his fourth term as president of the Florida Attractions Association.

## The "Ghost"

that came back to Main Street

MAYBE you called him Mike, or Joe, or Butch. When he toppled over into the mud, shattered by an enemy shell, they practically gave him up for lost. But the medics' care and half a dozen pints of blood plasma kept him alive as the front. And a lot more whole blood and expert surgery finally put him on his feet again.

Mike, or Joe, or Butch never expected to see Main Street again. There's a lump in his throat as he walks along. When you've almost died, the simplest things bring tears to your eyes. . . kids skipping rope, an old dog, the battered sign over the barber shop.

There are many "ghosts" who walk the land today—men with your blood flowing in their veins. And they can't thank you because they don't know who you are—and you don't know who they are.

Look at it this way—any man who came back may be alive because of you. Any one of thousands of wounded men joyously alive may owe his life to the blood you have given—or will give tomorrow.

What a fine, good feeling it is to know that you have helped preserve the miracle of life. Why not give your blood today that a man may live tomorrow?

WHAT HAPPENED TO THAT PINT OF BLOOD YOU WERE GOING TO GIVE?

Call Your Red Cross Today!

#### NATIONAL POLICIES OF GIRL SCOUTS

When American girls show such keen interest in the Scout movement and the membership grew so rapidly, it was soon realized that some basic policies were necessary for the benefit as well as the protection of the girls. The purpose of Scouting is to help girls realize the ideals of womanhood by preparing them for their future responsibilities of home, community, and the world. Therefore,

Don't Push  
Just Guide  
It Glides!

COME IN AND SEE THE  
NEW IDEAS IN MOWERS

**F. L. HARRIS  
SERVICE STATION**  
281 Main St., Belle Glade  
Phone 2845

the basic beliefs of the Scouting Movement are:

1. From the ethical code contained in the Girl Scout Promise and the Laws by which to live, the girls learn honor, decency, and the practice of our democratic way of life. This is the first fundamental of Scouting.

2. All Scouting activity is voluntary, since we are naturally more inclined to be more sincere and put forth more effort in work of our own choice. This is the second fundamental of Scouting.

3. Large groups often turn into mobs, so Troops of a workable number give each member an opportunity to take active part in troop life, and develop her natural talent. This is the third fundamental of Scouting.

4. Service is the way in which we learn to love and respect our fellow men. Through consideration for others and cooperation for the common good we learn Democracy.

5. Scouting is self-supporting. In budgeting their own finances, and in learning to make use of materials readily at hand, girls learn to economize and to plan wisely. Any necessary large financing is the responsibility of the community, as the parents' share in the support of the Scouting program for their own and their friends' daughters.

6. Scouting is open to all; there are no restrictions as to race, creed, religion, or economic status. Scouting recognizes that religious instruction in the responsibility of the parents and of the church, and therefore encourages girls to honor God and be faithful to their own religious beliefs. Religious ceremonies as a part of Scouting are limited to the inspirational program known as the "Scout's Own," a non-sectarian program of songs and inspirational readings.

7. Out-of-door life makes healthy, strong bodies; camping and out-of-door activities are a necessary part of Scouting to keep our future generations strong and resourceful.

8. Scouts are encouraged to take part in community affairs in preparation to take their place in country and world affairs, in service, educational and recreational fields. Owing to the youth of Girl Scouts, it has been considered expedient in political or legislative activities is not properly a function of the movement; however, the girls are encouraged to learn about

government and political affairs.

9. The program of Scouting is progressive, and must keep pace with the development and growth in ability of the girls. This is the fourth fundamental of Scouting.

#### OUTDOOR FLORIDA By Herb Mosher

Belle Glade folks, seeking salt water for diversion, will find no better place to go than around Fort Pierce. The lake section and Fort Pierce are tied up closely in business already, so if the two areas get to know each other better while enjoying the salt water, so much the better. Bob Enns, sports editor of the News-Tribune, has furnished me with the following "quest column" today, covering activities now in the Fort Pierce section. Thanks Bob.

Burt Pruitt, who runs a fishing camp down on the North Fork of the St. Lucie river, probably has one of the most unique fishing setups of anyone in these parts. From his base of operations, anglers may boat only short distance to either fresh or salt water fishing grounds.

Upstream from his camp the river narrows and bass and bream thrive. Downstream, and all sorts of saltwater bottom fish.

Pruitt reports there has been a little too much water for the best fishing but parties have hugged home some nice boatloads just the same. But whether you catch fish or not, the North Fork has unsurpassed beauty and offers a peek at wildlife in its most natural state.

Recently made a game preserve, the North Fork is a boy bird watcher's paradise. Alligators abound, it teems with fish, and every sort of water bird or crane can be seen perching in the dense foliage along the banks of the sluggish river. These ibi-like birds with long bills greatly expanded and flattened at the tip, have long been considered extinct in the S. S. Belvoir or not, we saw this with our own eyes. Pruitt regularly feeds five eagles at his dock and even calls longer.

them by name. We saw one six-footer, called "Mike," obey Pruitt's command to quit chasing a smaller saurian.

**Jensen Beach**  
A conversation with Herb, Pitchford at Pitchford's Camp in Jensen Beach reveals that trout and pompano are the bounties around the bridge while activity in the surf is limited mainly to yellowtails.

Live shrimp and fingerling mullet are the best bait for the coming months in the classroom. A complete physical check-up should be made at the physician's recommendation and a similar examination should be repeated at regular intervals.

The child's eyes, ears and teeth should receive special attention. The doctor will look for infected tonsils and adenoids and will test the heart; the child is usually pale or concolor, he may take a blood count and hemoglobin test and then be able to correct trouble before it becomes an advanced stage.

Doctors recommend that small pox vaccination and immunization shots be given during infancy and early childhood. However, if these have not been given, the doctor will start to school and is exposed to more diseases than when he is in the home.

Every school child should have his eyes tested at regular intervals, and parents should watch for eye strain symptoms such as continuous blinking and frowning, frequent blinking of the eyes with the hands and holding objects close to the face to examine them. Faulty vision holds back the brightest child and may cause him a great deal of trouble both in and out of school.

A discolored or slow child may be suffering from poor hearing. In school, poor hearing can retard the child and make him the last to hear. "A stilt in time" applies to hearing difficulties, because if the doctor sees the hard-of-hearing child in time, he may be able to correct the situation and possibly save his hearing.

Some parents believe there is no more worrying about "baby" teeth because they come out and are replaced by the permanent teeth. Authorities have proved this belief to be false. They advise taking good care of baby teeth to insure that permanent teeth will be sound and well spaced.

California is far ahead of Florida in providing her tourists and visitors with permanent highways capable of carrying traffic rapidly and safely. Expressways are imperative if Florida is to hold her present advantage in motor travel.

Presented by your Doctor  
Herb Mosher, Health  
and Medical Editor, your  
local newspaper.

#### HEALTHY SCHOOL DAYS

Parents should be certain their child is in the best possible health for the coming months in the classroom. A complete physical check-up should be made at the physician's recommendation and a similar examination should be repeated at regular intervals.

The child's eyes, ears and teeth should receive special attention. The doctor will look for infected tonsils and adenoids and will test the heart; the child is usually pale or concolor, he may take a blood count and hemoglobin test and then be able to correct trouble before it becomes an advanced stage.

Doctors recommend that small pox vaccination and immunization shots be given during infancy and early childhood. However, if these have not been given, the doctor will start to school and is exposed to more diseases than when he is in the home.

Every school child should have his eyes tested at regular intervals, and parents should watch for eye strain symptoms such as continuous blinking and frowning, frequent blinking of the eyes with the hands and holding objects close to the face to examine them. Faulty vision holds back the brightest child and may cause him a great deal of trouble both in and out of school.

A discolored or slow child may be suffering from poor hearing. In school, poor hearing can retard the child and make him the last to hear. "A stilt in time" applies to hearing difficulties, because if the doctor sees the hard-of-hearing child in time, he may be able to correct the situation and possibly save his hearing.

Some parents believe there is no more worrying about "baby" teeth because they come out and are replaced by the permanent teeth. Authorities have proved this belief to be false. They advise taking good care of baby teeth to insure that permanent teeth will be sound and well spaced.
